Safety Statistics

There is a trend in Wisconsin and the entire country toward opening more road routes to ATV/UTV use. Currently there are 35 states with laws that allow some type of road riding. In 2020 there were over 441,000 registered units in Wisconsin compared to only about 219,000 snowmobiles. While snowmobiles continue to decline as the riders get older, the ATV/UTV segment is growing with the older age groups.

ATV / UTV Registrations

Registrations expire March 31 annually

	Registered Vehicles					
	2016	2017	2018	2019	2020	2021 (*)
ATVs	314,096	315,094	319,117	321,217	327,980	329,144
UTVs	48,221	61,517	76,204	91,517	113,367	114,241
TOTAL	362,317	376,611	395,321	412,734	441,347	443,385

(*) as of 1/14/21

Many people are concerned about ATV accidents. Road Routes have been opening at an increasing rate since 2014 yet the average fatalities during that time have remained steady. Here are the facts using a 2019 DNR study and information from the 2017 NHTSA about Wisconsin fatalities.

The average fatality rate for ATV/UTV operators is 4.58 per 100,000

The average fatality rate for Car/Trucks is 10.6 per 100,000

- In 2020 Wisconsin:
- 19 people died on snowmobiles (in 11 weeks)
 - 22 people died in boats
 - 17 people died in ATV/UTV paved road accidents
 - 21 people died in ATV/UTV off road accidents

Fatalities per 100,000 Registered ATVs

Fatalities per 100,000 Registered UTVs
(91,515 registered UTVs as of 12/31/2019)

Of the 17 deaths on paved road routes in 2020 some may not have been on approved routes for ATV/UTV use. Responsible use of ATV/UTV's can be a fun and exciting family sport. Many riders are over the age of 40. With the increasing use of UTV's, roll bar protection and seatbelts will help reduce fatal incidents as time goes forward. Road routes are needed to connect local people to future trail systems in the Kettle Moraine and surrounding areas.

State Statute 23.33

(d) *Restrictions.* The designating authority may specify effective periods for the use of all-terrain vehicle routes and trails and may restrict or prohibit the operation of an all-terrain vehicle or utility terrain vehicle during certain periods of the year.

(e) *Signs.*

1. The department, in cooperation with the department of transportation, shall establish uniform all-terrain vehicle route and trail signs and standards and uniform signs and standards for the operation of utility terrain vehicles on all-terrain vehicle routes and trails. The standards may not require that any additional signs be placed on all-terrain vehicle routes concerning the operation of all-terrain vehicles or utility terrain vehicles with snow removal devices attached.

a. Erect a sign at each point on a highway where the all-terrain vehicle route begins and at each point where the all-terrain vehicle route intersects an all-terrain vehicle trail or a highway that is not designated as an all-terrain vehicle route. The town, village, city, or county is not required to erect a sign under this subdivision at a point that is not more than one-half mile from a sign marking the same all-terrain vehicle route on the same highway.
