Volume Charge	\$16.05 per 1,000 gallons

Unpaid bills will be subject to a late fee and potential disconnection. For further information and clarification the Utility Policy/Procedures is available on the village website and upon request from village hall.

Notes

Deduct Meter Season

- With the weather becoming warmer we are beginning the season of using our outside faucets.
- When you use your outside faucets you are charged for that water, but will not be charged the sewer rate if you have a deduct meter.
- These meter readings are not digital and therefore cannot be read by our DPW by driving down your street and reading a signal, like your regular water meter.
 - So these readings must be called in, emailed, or submitted online each month by the property owner in order for the credit to be applied to their billing.
 - If you forget to call in one month, that is ok. Just call in that reading when you can, and the full credit will be applied at the next billing. You will never lose your full credit.
- If you do not currently have a deduct meter, stop at village hall and you can purchase one to be installed.

Fun facts

Flushable wipes should not be flushed down the toilet. These items do not decompose as advertised and cause the sewer lines to be clogged. As a courtesy please do not use.
