

RANDOM ACTS OF KINDNESS COMMUNITY

During the last winter storm, which dumped approximately a foot of snow on our community, a glaring problem presented itself. Here in Random Lake, we have many residents that need a helping hand every once in awhile. Many were unable to clear snow from the ends of their driveways and sidewalks, get out to get basic supplies, care for their animals as they normally would or even just have someone check on them to assure, they are okay. This dilemma spurred a conversation amongst the village trustees and the following idea was born.

We have such a giving community and very often it just takes the knowledge that someone needs a helping hand to kick start us into action. With that in mind, the village trustees would like to create the “Random Acts of Kindness Community.” The idea is that those folks that are willing to help during these trying situations such as snow storms, power outages, extreme cold or heat, etc., can sign up in advance to help our neighbors in need. The RAKC will be comprised of community volunteers.

If you are interested in joining this community outreach program, please fill out the bottom of this form and drop it at the village office. You will be contacted to meet and discuss this initiative. Our hope is that an active database of names and duties can be comprised to use during such events.
